

CloverGurukul is an Interactive Online Training Platform that enables the trainer and learner to use the latest technologies for training while ensuring the traditional education method of teacher-student interactions with continuous assessment.

Digital education—need of the hour

Modernisation of education and digital learning is essential in this competitive world

Institutions which take advanced digital learning initiatives will be the frontrunners

Provision of advanced learning tools to students can help better results and higher level of knowledge for students

Interactive Learning

Interactive – learners can interact with trainers using video and text chat on consent of the trainer. Screen sharing is also possible to provide further assistance to learners during interactive sessions.

Group discussions - Groups and forums can be created by teachers to encourage intelligent discussions and interactive learning

Real time broadcasting - provides a broadcasting feature that can be used for remote online learning. Interactivity with the trainer is further enhanced during real time sessions.

CloverGurukul – A cloud based digital interactive platform for education built using latest technologies

Institutions and trainers can use the platform to upload digital training content, which can be used by their learners through any device and learn as directed by the institution. This is interactive and completely private to the institution and the respective learners

Advantages

Uniformity in best of teaching across students of the institution or group of institutions

Possibility of simultaneous lecture sessions for multiple classrooms

Reduced travel for teachers who travel between group institutions thereby saving travel cost, time and effort

- **Low cost**
 - Very small or nil initial investment
 - Pay per use options
 - Digital payments

Learn anytime, anywhere

The content can be accessed by the learners using devices such as **laptops, tablets or Smartphone from anywhere** and learn as directed by the institution.
